I. INTRODUCTION

Texas A&M AgriLife Extension Service and Cooperative Extension Program agents extend the Texas A&M University System to the people of Texas through a variety of outreach educational programs. They perform a vital role in the triad of functions - teaching, research and extension - which forms the basis of a Land Grant University System.

Extension agents work collaboratively with faculty, scientists, and other colleagues in the Texas A&M University System. Opportunities for collaboration exist with faculty in the various colleges of A&M System institutions and other universities outside of the system. Extension agents develop linkages with other agencies, organizations and institutions on the county, state and national level.

In furthering the Extension mission, Extension agents are expected to implement innovative and progressive programs that meet clientele and community needs. By educating adults and providing youth with leadership development programs, extension agents have a direct and often immediate impact on the quality of life of individuals, families and communities. This unique role distinguishes extension agents as a key local source of information and education.

The purpose of this career ladder is to provide a system for measuring and documenting the progress of extension agents in their profession and for rewarding their professional accomplishments.

Affirmative Action Statement: Texas A&M AgriLife Extension Service and Prairie View A&M Cooperative Extension Programs are equal opportunity employers. Equal opportunity shall be afforded within the Texas A&M AgriLife Extension Service and Prairie View A&M Cooperative Extension Program to all employees and applicants for employment without regard to race, color, religion, sex, national origin, age, disability, genetic information or veteran status.

III. EXTENSION PROFESSIONAL CAREER LADDER

A. Professional Progression

During the annual performance review of each extension agent’s program accomplishments and professional development, the agent will receive advice and counsel on readiness to submit a promotion packet for advancement consideration based on consultation of his/her supervisor and appropriate RPL/CEP Program Leader. The supervisor and the Regional Program Leader/CEP Program Leader should counsel the agent on promotion preparation by connecting performance appraisal with career ladder criteria. This is an on-going process.

Promotion to a higher level will be based on the agent’s accomplishments since his or her last promotion in rank. An agent must remain in a professional rank for three years or more before submitting a promotion packet for consideration of promotion to the next level. The number of years an agent is in a rank will be based on the individual’s professional accomplishments while still meeting the minimum years of professional experience for that rank. The
minimum years of professional experience will be determined as of June 1 in the year the promotion packet is being submitted for review.

All agents interested in being considered for promotion must submit an “Intent to Apply” form to their DEA. (See Appendix VII-1) The DEA will inform the appropriate RPL/CEP Program Leader of agents indicating an interest in promotion for that year. The Regional Leadership Team will provide a consensus vote for or against promotion for consideration to the Regional Peer Review Committee. Regardless of the Regional Leadership Team recommendation, all candidates’ promotion packets will be forward to the Regional Peer Review Committee for consideration. Candidates for advancement will be reviewed by a Regional Peer Review Committee based on the criteria stated in these guidelines. Candidates going from a I to a II or a II to a III will only be evaluated by the Regional Peer Review Committee.

After the Regional Peer Review, the Regional Chair will return the promotion packet and the committee’s recommendation to Associate Director for County Operations. The Associate Director will review the score sheet and send to the appropriate DEA. Candidates who are recommended for promotion from a I to a II or a II to a III will then be notified of their Career Ladder promotion. Candidates who were recommended to move from a III to a IV will meet with their supervisor to discuss the specific strengths and weaknesses identified from the regional committee. If the promotion packet is not recommended for promotion at the Regional Peer Review the promotion packet will not be sent to the State Peer Review.

The State Peer Review Committee will record strengths and weaknesses based on the contents of the CEA promotion packet. The State Peer Review Committee will consider comments and recommendations from the Regional Leadership Team, and the Regional Peer Review Committee on each packet. The State Peer Review vote and comments which support and justify their vote are added to the promotion packet and sent to the Director's office for any appropriate further review.

The Director/Administrator will ask Associate Directors to review promotion packets and make recommendations on promotion when discrepancies occur between regional and state peer review committee votes.

The Director/Administrator will notify agents on their promotion status.
Upon promotion to the next level, an agent will receive promotion status and salary increases as indicated, effective September 1.

**Annual Promotional Increments:**
- Level I to II: $2,400
- Level II to III: $3,600
- Level III to IV: $4,800

**B. Regional Peer Review Committee**
The Regional Peer Review process is intended to ensure that agents have an opportunity to present credentials for review and recommendation by their peers. The review and recommendation will be based on a promotion packet prepared by the agent that emphasizes his or her achievements in designated areas according to established criteria and based on accomplishments since last ranking. Each promotion packet should completely and accurately reflect the agent’s achievements toward the criteria so that reviewers will have the information needed to assess it.

The Regional Peer Review Committee will be composed of selected Level III and IV agents in the region, appointed by the DEA with input from the RPL, CED and CEP Program Leader. A regional committee must be comprised of 3-8 members and have a minimum of two level IV agents. Level III agents may not review or vote on promotion packets going from Level III to IV. If needed, Texas A&M AgriLife Extension Service County Operations office will appoint level IV agents from other regions to meet the minimum. On a rotational basis, a DEA will be responsible for oversight and facilitation of meeting arrangements. The District Extension Administrator will manage an efficient and equitable process for the regional review but is not a part of the committee review process. Regional Administrators, DEA’s, RPL’s, and CEP program leader should be available in person or via technology to answer questions on content and programming during the Regional Peer Review. (Personnel issues should not be discussed).

For promotion from a Level I to II and II to III, promotion packets will be evaluated by the Regional Peer Review Committee only. If promotion is recommended, the packet will come to Extension Administration for final approval.

For promotion from a Level III to IV, packets will be evaluated by Level IV Agents at the Regional Peer Review. If promotion is recommended, these packets
will proceed to a State Peer Review Committee before going to Extension Administration for final approval.

Each attending committee member will record a vote of yes or no. All attending members are required to vote. On a rotational basis, a DEA will be responsible for oversight and facilitation of meeting arrangements. The regional chair will be appointed prior to the committee meeting by consensus of DEAs in the region and will chair the committee process and transmit written comments and votes of the committee for each promotion packet to the District Extension Administrator.

C. **State Review Committee**

The State Review Committee process is intended to ensure that agents being considered for promotion have an opportunity to present credentials for review and recommendation in a uniform manner for review by their peers. The review and recommendation will be based on a promotion packet prepared by the agent that emphasizes achievements according to the designated criteria and will consider Regional Leadership Team assessment.

The State Review Committee, and its Chair, will be appointed from the Level IV agents by the Director. DEAs will make recommendations for the committee from the Level IV agents in their district. This chair will convene and facilitate the State Review Committee. The chair will assure that Level IV candidates’ promotion packets and the Regional Peer Review Committee, Regional Program Leader/CEP Program Leader, District Extension Administrator, County Extension Director recommendations are reviewed in a fair and equitable manner and will forward the final committee recommendations to the Associate Director – County Operations. Level IV agents have the experience and expertise to review promotion packets from all program areas. Therefore, there will be no efforts made to use specific numbers of reviewers from each program area to “balance” the committee membership. State Peer Review Committee members will be appointed for a two year term with half of the members rotating off each year.

All State Review Committee members are expected to critique all promotion packets in a consistent and pre-determined fashion. After each packet is reviewed, each committee member will vote yes or no. Each attending member is expected to vote. Following review by the State Review Committee, each candidate’s packet will be forwarded to the Director or to the Administrator for CEP, when appropriate, for final decisions.
The extension agent will be informed of the decision at the completion of the promotion process by the Director/Administrator. A culmination of comments from each review will be shared with the agent by their immediate supervisor.

D. The Role of Regional Leadership Team
The RPL/CEP Program Leader works with agents during the program planning process to establish effective educational programs with adequate evaluation building toward Career Ladder expectations for the next level. Serving as a resource, it is expected that the interaction with the agent is over a period of time that is adequate to ensure the agent’s program impacts meet the established criteria and are well documented. The RPL/CEP Program Leader reviews the program impacts in program summaries as the promotion packet is prepared.

Prior to the Regional Peer Review process, the appropriate Regional Leadership Team will identify strengths and weaknesses of each agent’s promotion packet and indicate level of support for promotion. These comments will be included in the promotion packet prior to the Regional Peer Review and will be considered by the Regional and State Peer Review committee.

E. The Role of Level III and IV Agents
1. Selected Level III and IV agents serve as a member of the Regional Peer Review Committee.
2. Selected IV’s serve as a member of the State Peer Review Committee.
3. Level III and IV agents serve as a mentor to agents in their region to help prepare them for a successful promotion process by: informally critiquing their information; being involved in training on promotion packet preparation; and/or serving as a mentor for an individual(s) throughout their promotion process.

IV. APPEALS PROCEDURE FOR PROFESSIONAL PROGRESSION
A. Extension agents have the right to present grievances concerning progression through the professional career ladder. Basis for an appeal exists when, in the opinion of the Extension agent, one or more of the following has occurred:

1. There was a failure to follow the prescribed procedures.
2. There was a failure to adhere to the established criteria for determining progression in rank.
3. There was a discovery of significant new evidence in support of the extension agent related to academic credentials, length of professional service, performance appraisal information and overall achievement, productivity, and/or effectiveness.

B. Extension agents having concerns or grievances regarding other aspects of the professional career ladder are encouraged to seek resolution of those concerns through established supervisory channels prior to filing a written appeal. If the matter cannot be resolved, the agent may seek a hearing by an appeals committee.

C. The written appeal shall include the basis for the appeal and must contain any supporting evidence and/or documentation to be considered. Written appeals concerning denial of progression in rank must be filed with the Director/Administrator within 20 working days of notification of denial.

D. The appeals committee(s) shall be appointed by the Director/Administrator to review and/or hear individual appeals regarding progression in rank. The committee(s) will contain not less than three and not more than five members.

E. The appellant may request to meet with the appeals committee to present his/her case. Such a request shall be included in the written appeal. If the appellant elects to be represented by an attorney, he or she will notify the Director’s office in writing at least five working days before the date the appeal is to be heard. The agent will be solely responsible for any legal expenses incurred in connection with such representation.

F. The appeals committee shall judge the merits of the appeal and forward its written recommendation with supporting documentation to the Director/Administrator for final action within 20 working days from the end of the appeal hearing.

G. The Director/Administrator will notify the agent in writing of acceptance or rejection of the appeal committee recommendation. Notification will be made within 60 working days of receipt of the written appeal.

Questions about this procedure should be referred to the Extension Human Resources Office at (979) 458-6690.
